The friends of the institution have subscribed \$6,000, to meet in part the expenses for the ensuing year; other resources. however, will be necessary, in order to maintain the previous extent and high character of the teaching. For this (and for other reasons, to be explained when the students are assembled) it will be necessary to make some change in the Boarding and Rooming of the students. For those whose parents or guardians do not live in town, it is deemed best, in order to prevent ex-posures and temptations, that they should board and room on the premises. Experience has abundantly proved that self-boarding is unfavorable to h-aith.

The room rent will be necessary to meet the expenses of the establishment. The board will be no more than its actual cost (or as low as healthful board can possibly be afforded, or what ever else is decided on). For special and sufficient reasons powever, the Faculty will dispense with this rule, and allow atudents to board themselves or to board out.

It is believed that the College will open under better suspice!
